Ships Equipment Replacement Program (SERP)

- Primary Goal: standardization of medical equipment throughout the fleet
- Secondary Goal: reduce unit cost with purchase contracts for large quantities of units

Technology

- Provide current technology to optimize health care delivery:
  - SERP Equipment
  - SAMS/TMIP/CHCS II-T
  - Telemedicine
    - CR DR
    - Teleradiology Teledermatology
    - Teleophthalmology Telepsychology

Crew Medical Readiness (CMR)

DNA	Oral Polio	G6PD
PPD	Meningococcus	Sickle Cell
HIV	Hep-A	PE – 5yr
MMR/Titer	Hep-B	Optometry (prn)
Typhoid	AVIP (prn)	Ann Hlth Assess
Tetanus/Dipthth	SVP (prn)	Women's Hlth (Annual & PAP)

CMR (con't)

- Based on current percentage of each item to produce a chartable metric point
- Derived from current report requirements and SAMS/TMIP
- Produces a metric point that can be charted for trending purposes

LPD-4/LSD-41 Manning

- Current EDVR for both class of ships call for a HM-8425 (LPD E-5, LSD E7/8)
- Move afoot to replace HM-8425 with HM-0000
- TYCOMs believe “keep as is”

Our Goal

"KEEP SAILORS AND MARINES ON STATION AND FIT TO FIGHT "

- Deploy healthy people

- Keep them healthy

- Ensure best medical care available

‘03 FOCUS ITEMS
